Master Title Plats and Historical Indexes

Master Title Plats (MTPs)

- Graphic representations of current Federal ownership, agency jurisdiction, and rights reserved to and from the federal government.
 - Supplemental Plats are created where detail is so dense that a larger cartographic scale is required

Historical Indexes (HIs)

- A tabular summary of all actions taken on Federal lands over time.
- Contains additional information for the cases presented on the MTPs.

OREGON GIS AND DATA MANAGEMENT

The Bureau of Land Management Oregon data library allows users to access geospatial data sets as either a downloadable ESRI file geodatabase, or through Web Services. These data sets are updated as needed. Users of the data should refer to the metadata should they have any specific questions. No warranty is made by the BLM for use of the data for purposes not intended by the BLM.

Please note that this list does not represent the entirety of BLM Oregon's geospatial data. More datasets will be made available for external distribution as they pass internal BLM QA/QC benchmarks.

Download individual datasets, listed by category below.

for TECHNICAL ADVICE

Requests should be addressed to: Chief, Branch of Geographic Sciences (957) P.O. Box 2965 Portland, Oregon 97208

Questions involving more complex issues such as survey procedure should always be presented in writing. Written responses will be based solely on the information provided; consequently, it is important that written requests contain all pertinent information such as retracement data, existing control corners, affected previous private surveys, and land use lines.
